Emblem Health (ConnectiCare) (EFFECTIVE 8/2023)

Autologous Chondrocyte Implantation—Pre-authorization Checklist

The following checklist reflects the minimum requirements that the plan will need at the time of pre-authorization. Failure to include all of this information in the pre-authorization request or failure to make sure that all 'no' answers are fully addressed in the pre-authorization request will significantly increase the likelihood that the pre-authorization request will be denied or significantly delayed.

Injury caused by acute or repetitive trauma	□ Yes □ No
Age 15 to 55 years old	□ Yes □ No
Focal full thickness (Grade III or IV) unipolar lesion on a weight bearing surface of femoral condyles or trochlea	□ Yes □ No
Defect size 1 cm ² to 10 cm ²	□ Yes □ No
Lesions must be symptomatic with lesion related pain, swelling, and/or locking or catching) limiting activities of daily living	□ Yes □ No
Normal knee biomechanics or alignment and stability achieved concurrently with ACI implantation	□ Yes □ No
Patient is willing to comply with prescribed post-operative rehabilitation program	□ Yes □ No
Confirm the absence of the following: First line therapy Patellar or multiple defects Previous total meniscectomy Allergy to gentamicin or sensitivities for materials of bovine origin Meniscal allograft concurrently with ACI Kissing Lesions Repeat ACI for the same lesion Infection at proposed operative site Cartilage defect associated with osteoarthritis or inflammatory diseases where an osteoarthritic or inflammatory process significantly and adversely affects the quality of the peri-lesional cartilage	□ Yes □ No

All 'no' answers must be fully addressed at time of pre-authorization.

The reimbursement material contained in this guide represents our current (as of January 2024) understanding of the pre-authorization checklists reflected in various payer policies. Many of the topics covered in this guide are complex and all are subject to change beyond our control. Healthcare professionals are responsible for keeping current and complying with reimbursement-related rules and regulations. Nothing contained herein is intended, nor should it be construed as, to suggest a guarantee of coverage or reimbursement for any product or service. Check with the individual insurance provider regarding coverage. Providers should exercise independent clinical judgment when submitting claims to reflect accurately the services rendered to individual patients.
